McGREGOR'S

Floral Gems for Autumn 1904

A POT CONTAINING SIX FREESIA BULBS.

THE BEAUTIFUL FREESIA REFRACTA ALBA

The charming and novel blossoms of this popular flowering bulb are well shown in our illustration. For Winter blooming in the house it is probably today the most popular of all. It is sure to succeed and flower elegantly for anyone in any situation. The splendid blossoms are borne in great profusion; color purest white, the lower petals touched with yellow. The perfume is delicious, reminding one of Hyacinth, Mignonette and Jessamine combined. There are six to eight flowers on a stem nine inches high, which are particularly valuable for cutting, remaining in good condition for two weeks. Four to six bulbs can be planted in a five-inch pot, box or pan, and grown like other bulbs. By planting at intervals from September to November, a succession of flowers can be had throughout the Winter. We offer the largest and finest bulbs and earnestly recommend every one to plant at least a few of this lovely variety. Price, 3 cents each; six for 15 cents; twelve for 25 cents; twenty-five for 50 cents.

THE MANY testimonials concerning the bulbs and plants we sent out last Fall, were so gratifying that it makes it a pleasure to present this new edition of our Autumn Catalogue of Bulbs and Plants. Although this issue is not as handsome a catalogue as our last Spring's book, yet our stock of bulbs, plants, etc., enumerated herein is the finest that can be obtained. Our business dates from 1867, and during this time it has increased to such an extent that we now operate one of the largest establishments of its kind in the United States.

Our bulbs, which we import direct from the largest Holland growers, are of the finest, both as to variety and quality of bulb.

Our prices will be found to compare very favorably with those of other reliable houses, and are, in fact, as low as is consistent with superior quality. Purchasers will find it to their advantage to order early in the season—as soon after the receipt of this catalogue as convenient—while our stock is complete and unbroken. With the exception of Lilies and some few other varieties (which are noted) we will be ready to fill orders early in September, about the date this catalogue will reach you.

OUR GENERAL CATALOGUE for the Spring of 1905 will be ready early in January. All purchasers from this Catalogue, and all who have been customers previous to this date, will receive a copy free at the time it is issued, and without applying for it; others wishing it will please write for it. Should any of our patrons have friends requiring Bulbs, etc., we would be pleased to forward a copy of this catalogue on receipt of name and address. Customers changing their residence will kindly furnish us with their new address, so we may mail Catalogue properly.

ORDERS LOST OR STOLEN. Sometimes it happens that orders never reach us. When customers fail to receive their plants within a reasonable time, they should inform us of the fact, and at the same time send a duplicate of their order, also stating the form of remittance and date of original order.

USE OUR ORDERSHEET, FILLING ALL BLANKS CAREFULLY. In making out your order please use the convenient Order Sheet which accompanies each catalogue. If it is necessary to write a letter in addition, let it be on a separate sheet.

NEW LOW EXPRESS RATES. We call your attention to the new low express rate, which is a reduction of 20 per cent. from the regular merchandise rate at which plants have been expressed heretofore, and also that packages of less than 100 pounds are billed at 100 pound rates.

If your order is sent by Express, we will include extra plants and bulbs

BULBS AND PLANTS BY MAIL. When plants are ordered by mail, we prepay postage, delivering the plants and free of all expense to any postoffice in the United States; when shipped by express, purchaser pays charges; but we can send larger plants and will send some extra plants to help the expressage.

OUR TERMS ARE CASH WITH THE ORDER. No order sent C. O. D. unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

HOW TO REMIT—POSTOFFICE ORDERS. The safest and most convenient way of transmitting money from one point to another is by means of postoffice orders; if these are lost a duplicate can easily be obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most postoffices, but not all. The fee is but 5 cents for \$5.00 and under.

EXPRESS MONEY ORDERS. If more convenient, money can be sent in this way with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt.

BANK DRAFTS. These should be drawn on New York City, and made payable to the order of The McGregor Bros. Company.

WE WILL BE RESPONSIBLE FOR MONEY SENT BY ANY OF THE ABOVE METHODS

LOOSE MONEY enclosed in a letter is at the risk of the sender.

INDIVIDUAL CHECKS from Southern States cannot be received unless 10 cents is added to pay for collection.

POSTAGE STAMPS. These can be sent for fractional parts of one dollar, or where postoffice order cannot be had, provided an extra two-cent stamp is sent with every remittance. Send one-cent stamps if possible.

KINDLY KEEP A COPY OF YOUR ORDER TO COMPARE WITH PLANTS RECEIVED

CULTURAL DIRECTIONS

The first requirement for success, is, that the bulbs are sound, therefore buy from a reliable house.

The soil which almost all bulbs, that is Dutch bulbs, require, is a light sandy loam, well enriched by rotted manure. Procure a good mellow soil from the meadow, pasture, or go to the woods and scrape the light soil from the top of the ground. To this add about one-third old well-rotted manure and some sand. Mix it thoroughly and then you have a soil which will be the very best for bulb culture for potting, bedding or for window boxes.

The bulbs are planted in the fall and allowed to remain in the ground all winter, a well drained location being preferable. Place the bulbs about six inches apart and cover with about three inches of soil.

The True Bermuda Easter Lily.

The True Bermuda Easter Lily, LILIUM HARRISII

This peerless Lily is the greatest acquisition to floriculture made in many years. Their profusion of bloom, the remarkably short time required to bring them into flower, and the certainty to produce abundant bloom and also the ease with which they can be manipulated to be flowered at any desired period, such as Christmas, Easter and any other special occasions, render them invaluable. The flowers are delightfully fragrant, pure waxy-white, of great substance, and if cut as soon as they are open or partially open, they can be kept for two weeks. Bulbs potted in August can be had in flower in November if desired. The quantity of bloom produced is marvelous, the average production of bulbs five to seven inches in circumference, even when forced, is from five to eight flowers; and of bulbs seven to nine inches, eight to twelve flowers. Blooming plants in pots form typical Easter offerings and presents, for decoration of the window, table, house or church. Nothing is more appropriately beautiful and highly appreciated. Thousands upon thousands are sold in the large cities every winter for this purpose. As a garden Lily it is of great beauty, being entirely hardy excepting in northern climates where it requires a protection of leaves or litter to the depth of five or six inches. Price, 20 cents each; three for 50 cents.

It is perfectly hardy, requiring not the slightest protection and no care, after being once started. Price, 20 cents each.

Cyclamen, or Persian Violet, New Improved

There is no more ornamental plant for greenhouse or parlor culture than the Cyclamen. It grows readily, blooms freely, and remains a long time in flower. Keep them in a cool, light place, watering lightly until growth begins. Then water freely and give plenty of light and air. On the approach of cold weather remove to a warmer situation, the parlor or greenhouse, but keep them near the light. The whole secret of growing Cyclamens to perfection is light, air and low temperature. Price, 10 cents each; large strong plants, 25 cents each.

"The House Roses"

In this collection of "The House Roses" we have 12 of the best roses for winter blooming. Any and all will produce large flowers in the most pleasing shades of color. They are all ever-blooming and if protected slightly with evergreen boughs or straw they will stand the severe winters of the northern states. The complete set for \$1.00.

"Ivory," The White Golden Gate.

The White Sport of Golden Gate, "IVORY"

We are pleased to offer a most valuable addition to our list of Roses for cut flower purposes. A "sport" from the fine old variety Golden Gate, which today is probably the freest flowering Rose of its type in cultivation, but which unfortunately lacks in decided color. "Ivory" embodies all the good points of its parent—size, freedom of bloom, strong, vigorous, healthy growth with a pure white color, which makes it an invaluable acquisition to the list of forcing Roses. It has received highest honors wherever shown. Price, 15 cents each; two-year-old plants, 40 cents.

The New Rose, CLIMBING SOUPERT

This is a climbing form of the grand variety, Clothilde Soupert. The flowers and foliage are identical with that variety, differing in that the growth is a rampant climber, as free in bloom as its parent. This makes grand plants to grow in the field, and prune or train into bush form for spring flowering, much superior to the parent variety. Color ivory-white, deepening to a rosy-blush in the center. Price, 15 cents; two-year-old plants, 35 cents.

BON SILENE

Still a prime favorite, on account of its delightful fragrance and strong growing qualities; color, deep rose, shaded carmine. Valuable for summer or winter flowers. Price, 10 cents each; two-year-old plants, 25 cents each.

The Grandest of all, THE METEOR

A velvety-red ever-bloomer of the deepest glowing crimson; as fine as a Hybrid. Flowers of medium size, very double and slightly recurring; a beautiful open Rose, a free bloomer and an excellent pot Rose. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. Price, 10 cents each; large two-year-old plants, 35 cents each.

New Bedding Rose GRUSS AN TEPLITZ

It is a Rose for everybody, succeeding under the most ordinary conditions, and will take rank with such old-time favorites as Hermosa, Souv. de la Malmaison, Clothilde Soupert, etc. In color it is rich scarlet, shading to velvety crimson; of larger size than Hermosa; very fragrant; a free, strong grower, and the most profuse bloomer known to us. Price, 15 cents each; two-year-old plants, 30 cents each.

SUNRISE, The New Forcing Rose

Sunrise has taken first honors wherever shown. In close bud form it shows a deep coppery-pink, but as the flower opens the inner side of the petals shade from a clear yellow to a deep copper, making a very pretty color effect.

The fragrance is delightful, much the same as the old Rose Bon Silene. The young foliage comes a copper-bronze, and as it grows older changes to a deep green. This Rose has a good future, having been thoroughly tested, and all the qualities that make a good Rose are in the "Sunrise." Price, 15 cents each; two-year-old plants, 40 cents.

Hybrid Tea Rose, MADAME SCHWALLER

The color is a bright rosy-flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. A Rose from which we hear very flattering reports from all directions. This grand Rose has more perfume than any that we offer. Try it. It is magnificent. Price, 10 cents each; large two-year-old plants, 25 cents each.

The Superb Yellow, MARECHAL NIEL

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. Price, 10 cents; large two-year-old plants, 30 cents.

Tea Rose, WHITE MAMAN COCHET

The finest Rose of the year; like its parent, the growth is vigorous with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least one of this beautiful new Rose. Price, 15 cents each; two-year-old plants, 30 cents each.

The Beautiful Ever-Blooming MAMAN COCHET

It is a vigorous grower with beautiful foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. The color is a deep rose-pink, the inner side of the petals being a silver rose, shading and touched with golden-yellow. We pronounce this the finest Rose by far that has been introduced from France in the past five years. Price, 15 cents each; large two-year-old plants, 35c each.

New Ever-Blooming Rose, GOLDEN GATE

The flowers are extra large, very full and finely formed, and of excellent substance; the buds are large and of the most desirable form; the color is a rich creamy-white, beautifully tinged with fine golden yellow. The petals are large and broad, and exquisitely bordered and tinted with clear rose, making altogether a Rose of the rarest and most indescribable beauty. Price, 10 cents each; two-year-old, 30 cents each.

One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. Their lasting quality, when cut, is remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing *Maiden Hair Fern* in grace, fineness of texture and richness of color. It is one of the finest decorative vines recently introduced; by many florists it is used instead of *smilax*, as easily grown and very much more beautiful on account of its light, feathery growth. Price, nice plants, 15 cents each; two for 25 cents; large plants, 25 cents each.

ASPARAGUS SPRENGERI

When introduced, at a high price, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large roses, etc., but grown in suspended pots, it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decorations of mantels, nothing can equal it. It is also a handsome thing for ferneries and hanging baskets. Price, 10 cents each; three for 25 cents; large plants, 25 cents each.

The New "Ostrich-Plume" Fern

The young miniature fronds are constantly developing, a rich, lush green on the darker green ground of the main fronds, a charming contrast being thereby produced.
